Student Catalog Addendum
Effective Date of Addendum: 3/21/2024
Posted Date: 3/25/2024
Effective Date of Catalog: 12/1/2023

This Catalog Addendum shows corrections or revisions for language in the catalog.

The following sections of the catalog will be revised for the Nursing Associate Degree (ADN) program. These are corrections to the text in the Student Catalog.

1. The NUR103 Medical Terminology course in the ADN program has 2.0 credits. (Page 79 & 135)
2. The CIP Code should be 51.3801 (Page 81)
3. The paragraph on page 53 will read: Attendance Check Points.

The Nursing students' attendance is closely monitored by the Nursing staff. Check points have been established to review each student's attendance percentage throughout their program. If warranted the instructor or authorized staff member will meet with the student to determine an attendance make-up plan. If a student is chronically absent from classes or does not adhere to the agreed upon attendance plan, the student is subject to be withdrawn from the Nursing program. There is an attendance requirement to enter the NUR265 course. If students do not meet these hour requirements, they will be an active student but cannot proceed in their program until attendance requirements are met. The students will be provided with more information regarding the requirements for make-up hours during a student academic coaching session. If the student does not make up the missing hours within the designated make-up time, the student may be withdrawn from the Nursing program. Failing to start the NUR265 class as scheduled will result in the student not completing their program by their contracted date.
