

Cost of Attendance

2025-2026

V02 6/21/2025

The following estimated expenses apply to full-time, first-time undergraduate students enrolled at Valley College, organized by program. A first-time student is defined as an individual who has not previously attended any post-secondary institution. The cost represents the estimated costs for the student's first year of their program. The costs are listed in the COA to assist students in planning for their financial obligations. Required Fees include program-specific charges and are posted to the student's ledger. The Graduation Fee is included in the Cost of Attendance (COA); however, it is not charged unless the student successfully completes their program. Fees that are charged the second year of the program are not shown on this list. More information on the cost of attendance can be found in the Tuition and Fees Information document found on the Catalog website. They also appear on the student's enrollment agreement. Indirect Costs include personal expenses, school and miscellaneous supplies, food, housing, and transportation. These expenses are paid independently by the student and may vary. Students enrolled in 100% online programs should not incur transportation costs.
